May 28, 2020

Dear Partners,

We hope this message finds you and your families doing well.

This week has been a tumultuous time for our state and our nation. As we pass 100,000 COVID-19-related deaths nationally, and 200 locally, the additional impacts of structural racism have also been elevated by this virus and by actions across several communities. Structural racism and its impact on health outcomes are widely known. However, change in these systems has been slow to non-existent.

At the Health Foundation, we hold equity as a central value and believe that to achieve justice and fairness in health resources and outcomes, we need to disrupt the conditions that result in racial and other health inequities. We are excited to share that a group of committed community advocates are leading efforts to elevate awareness of the effects of racism in the region.

Founded in 2015, the Rochester Black Agenda Group (BAG) states that it committed to the uplifting and improvement of Black people in the Greater Rochester area. Last week, the BAG issued a document declaring Racism as a Public Health Crisis and asks that community members, organizations, and government officials endorse the declaration.

Some highlights from the declaration:

- Race is a social construct with no biological basis.
- Racism is a system that creates structures of opportunity and assigns value based on the social interpretation of how one looks, that unfairly disadvantages some individuals and communities, while unfairly providing advantages to other individuals and communities, and saps the strength of the whole society through the waste of human resources.
- Racism causes persistent racial discrimination in housing, education, health care, employment, criminal justice, business, and economic mobility.
- Racial health disparities in the Black Community have existed since racial health data has been collected and analyzed. Racial health disparities in diabetes, hypertension, heart disease, and mental health are prevalent and growing.

Read the full declaration here.

The Health Foundation is proud to support the Rochester Black Agenda and we encourage organizations working toward equity to review the declaration and share your endorsement with the BAG.

With Gratitude,

Matthew A. Kuhlenbeck
President & CEO

LEARNING OPPORTUNITIES

We’ve teamed up with WXXI to support live, virtual town halls related to COVID-19.

The latest WXXI Live Forum: "Restarting the Economy," featured industry leaders and business owners who answered questions about the guidelines for reopening the region, discussed the different phases of process, and talked about how local businesses are being impacted by the pandemic. Watch the program here.

The Child & Adolescent Psychiatry division at UR Medicine is hosting a webinar at noon on Friday, May 29 focused on Practical Tips for Family Wellness during COVID-19. UR experts will participate in a virtual town hall-style meeting to discuss practical parenting tips, strategies for family resilience and more. Register here.

GrantSpace by Candid is offering free training and self-service tools and resources to help nonprofits write successful grant applications and build strong, sustainable organizations. Training topics include Introduction to Finding Grants, Introduction to Proposal Writing, Diversity and Inclusion, and more.

FUNDING OPPORTUNITIES

NEW: U.S. Department of Agriculture Coronavirus Food Assistance Program (CFAP). This $19 billion program includes support to agricultural producers as well as the Farmers to Families Food Box Program. CFAP provides assistance to producers of agricultural commodities who have suffered a five-
percent-or-greater price decline or who had COVID-19-related supply chain disruption losses. Click here for details.

RESOURCES

New York Forward has created a Business Reopening Safety Plan Template to help businesses develop a written safety plan that is required by the State for businesses to reopen. Plans must outline how the workplace will prevent the spread of COVID-19. This plan does not need to be submitted to a state agency for approval but must be retained on the premises in the event of an inspection.

CDC Reopening Guidance for Cleaning and Disinfecting Public Spaces, Workplaces, Businesses, Schools, and Homes

Greater Rochester Chamber of Commerce is sharing resources to help businesses make informed decisions and undertake responsible, fact-based planning for continuity during the pandemic and as businesses prepare to re-open. Visit the resource page here.

Linda Alpert Gillis at Pediatric Behavioral Health and Wellness at the University of Rochester has created a comprehensive list of behavioral health resources for anyone working with youth and families on behavioral health challenges to use and share during the COVID-19 crisis. Download the free PDF here.

The Rochester-Monroe Anti-Poverty Initiative has been collecting feedback from the community to inform how the Rochester and Monroe County community responds to COVID-19 to support households experiencing poverty. View the feedback here.

The Mental Health Association of Rochester/Monroe County’s webpage lists local and national resources (including video chats) to support those who are feeling anxious or overwhelmed.

Visit the Rural Health Information Hub for resources, events and COVID-19 news related to rural communities.

PARTNER SPOTLIGHT

ROC the Future Launches "Doctors are Open" Campaign

Vision and hearing screenings, speech screenings and immunizations are critical to school success.

To get this important message out, our partners at ROC the Future have launched its Doctors Are Open campaign to raise awareness about the importance of preventive health visits and reassure parents of safety while traveling to and from their doctor’s offices, clinics, and hospitals amid COVID-19.

If your organization works with kids and families, ROC the Future is asking you to help spread the word. Access the toolkit here to find shareable resources in English and Spanish, including transportation support for families.

You can also help boost the message that DoctorsAreOpen by using the hashtag and tagging @rocthefuture in your posts.

Matchstick Prize Rewards Change-makers

Has a small nonprofit in Greater Rochester impacted you or someone you know?

Consider nominating them for Causewave Community Partners’ $5,000 Matchstick Prize (by Monday, June 3).

Causewave Community Partners, the Credit Union Collective, Two Point Capital Management and the Democrat & Chronicle have partnered for the fifth year to offer this unique prize to local nonprofits that are “small but mighty” in our community and have demonstrated results in achieving meaningful community change in the Greater Rochester region.

In addition to the cash prize, the winner of the 2020 Matchstick Prize will receive donated media space in the Democrat & Chronicle, valued at $25,000!

HEALTH & WELLNESS

Trillium Health Opens COVID Respiratory Evaluation & Testing Area

Staff at Trillium Health have rapidly operationalized a COVID Respiratory Evaluation and Testing Area (RETA) where patients and members of the community can be evaluated and tested for COVID-19.

Check out their video for a behind-the-scenes look at the new area.
Trillium has also created a dedicated COVID-19 hotline at (585) 545-7292 for community members who lack access to a primary care physician and are experiencing symptoms of the coronavirus such as fever, shortness of breath, or cough.

WAYS TO HELP

Plasma Needed to Help Fight COVID

In coordination with the U.S. Food and Drug Administration, the Red Cross is seeking people who are fully recovered from the novel coronavirus to donate plasma to help current COVID-19 patients through its COVID-19 Convalescent Plasma Program.

People who have recovered from COVID-19 have antibodies in their plasma that can attack the virus. This plasma is being evaluated as treatment for patients with serious or immediately life-threatening COVID-19 infections, or those deemed by a healthcare provider to be at high risk of progression to a severe or life-threatening condition.

In addition, the Red Cross is encouraging people who have not had COVID-19 to schedule and keep appointments to donate blood or platelets to ensure a stable blood supply during this pandemic.

Reminder: Do What Counts!

Completing the census is a relatively easy way we can help our community during the pandemic. It only takes about 10 minutes to complete.

The coronavirus outbreak has led the U.S. Census Bureau to delay the timeline for sending people door-to-door to count everyone who does not respond online. Original deadlines for completion have been extended.

Responding to the census is our right and civic duty; it affects the allocation of funding for our community’s public resources, how we plan for the future, and our voice in government. To learn more and to respond online, visit 2020census.gov.

JOIN OUR TEAM!

At the Health Foundation, we seek to effect change in health outcomes and disparities shaped by inequitable policies, systems, and environments, with values centered in equity, stewardship, partnership, innovation and integrity.

We’re looking for a Finance and Grants Manager to join our dedicated team as we serve diverse communities and work with dynamic partners to help improve health outcomes in our nine-county region.

To learn more about this opportunity, click here.

The mission of the Greater Rochester Health Foundation is to pursue and invest in solutions that build a healthier region where all people can thrive.
